SKILLS

Frontend:
React, TypeScript, JavaScript, Vite, Angular, ArcGIS JS API

Backend:
C#, .NET Core, Python, SQL Server, REST APIs

Cloud & AI:
AWS (Bedrock, Cognito, S3, CloudWatch), CI/CD, Git

Agentic Technologies:
Claude Code, Kiro, AI Code Review Agents, Context Boundary Construction

EDUCATION

- AAS in Architectural Technology, Lake Superior College (2011)
- Construction Documents Technologist (CDT), CSI

SUMMARY

Innovative Senior Software Engineer with 10+ years of experience in developing and modernizing enterprise web and geospatial applications using React, TypeScript, Python, and .NET. I specialize in AI-enhanced engineering workflows that increase delivery speed by over 50% and help identify defects early.

WORK EXPERIENCE

Senior Software Engineer JAN 2022 - PRESENT

Software Solutions Integrated / Remote

- Developed a software factory, boosting feature delivery speed by 50%.
- Created AI-powered code review agents that identified 18 bugs preemptively.
- Revamped batch event editing for 75% faster load times and reduced API calls.
- Implemented AI report summarization, achieving 75%+ reduction in token consumption.
- Led UI Focus Group since 2023, migrating from React 16 to 18 and improving build speeds by 60-80%.
- Mentored 7+ junior developers through pair programming and code reviews.

Senior Geospatial Developer Jan 2021 - Dec 2021

GIS Inc / Remote

- Designed and implemented data flows and interactive front ends for essential geospatial web systems.
- Optimized SQL Server stored procedures to reduce latency, and ensured smooth updates for .NET API libraries.

Geospatial Developer May 2018 - Jan 2021

GIS Inc / Remote

- Spearheaded the development of a secure customer enrollment workflow, onboarding over 10,000 customers and supporting numerous downstream features since 2020.
- Delivered comprehensive full-stack features within an Agile framework, emphasizing robust unit testing as a standard practice.

Lake Superior Consulting / Duluth, MN June 2011 - May 2018

- Tiles: Front End Developer (2016–2018) - GIS Supervisor (2013–2016)
- GIS/CAD Technician (2011–2013)
- Created specialized GIS web tools for energy sector clients and automated data processing tasks using Python.
- As GIS Supervisor, led a team of GIS analysts, managing schedules and ensuring timely delivery of client projects.
